

TRAVELLING EXHIBITION

CHROMA TERRA

THIS PHOTOGRAPHIC EXHIBITION REVEALS UNEXPECTED DETAILS FROM THE NATURAL WORLD THROUGH A WIDE SELECTION OF SPECIMENS FROM THE COLLECTIONS OF THE MUSÉUM NATIONAL D'HISTOIRE NATURELLE.

PREPARE TO BE AMAZED BY THIS COLOURFUL EXHIBITION, WHICH PLAYS WITH SCALE AND CLOSE-UPS. IT HIGHLIGHTS THE DIVERSITY OF LIFE, THE PRESERVATION OF SPECIES AND HUMAN CULTURE AND THE IMPORTANCE OF SCIENTIFIC RESEARCH.

MUSĒUM NAL HIST NATURELLE

ZOOMING INTO THE MATTER

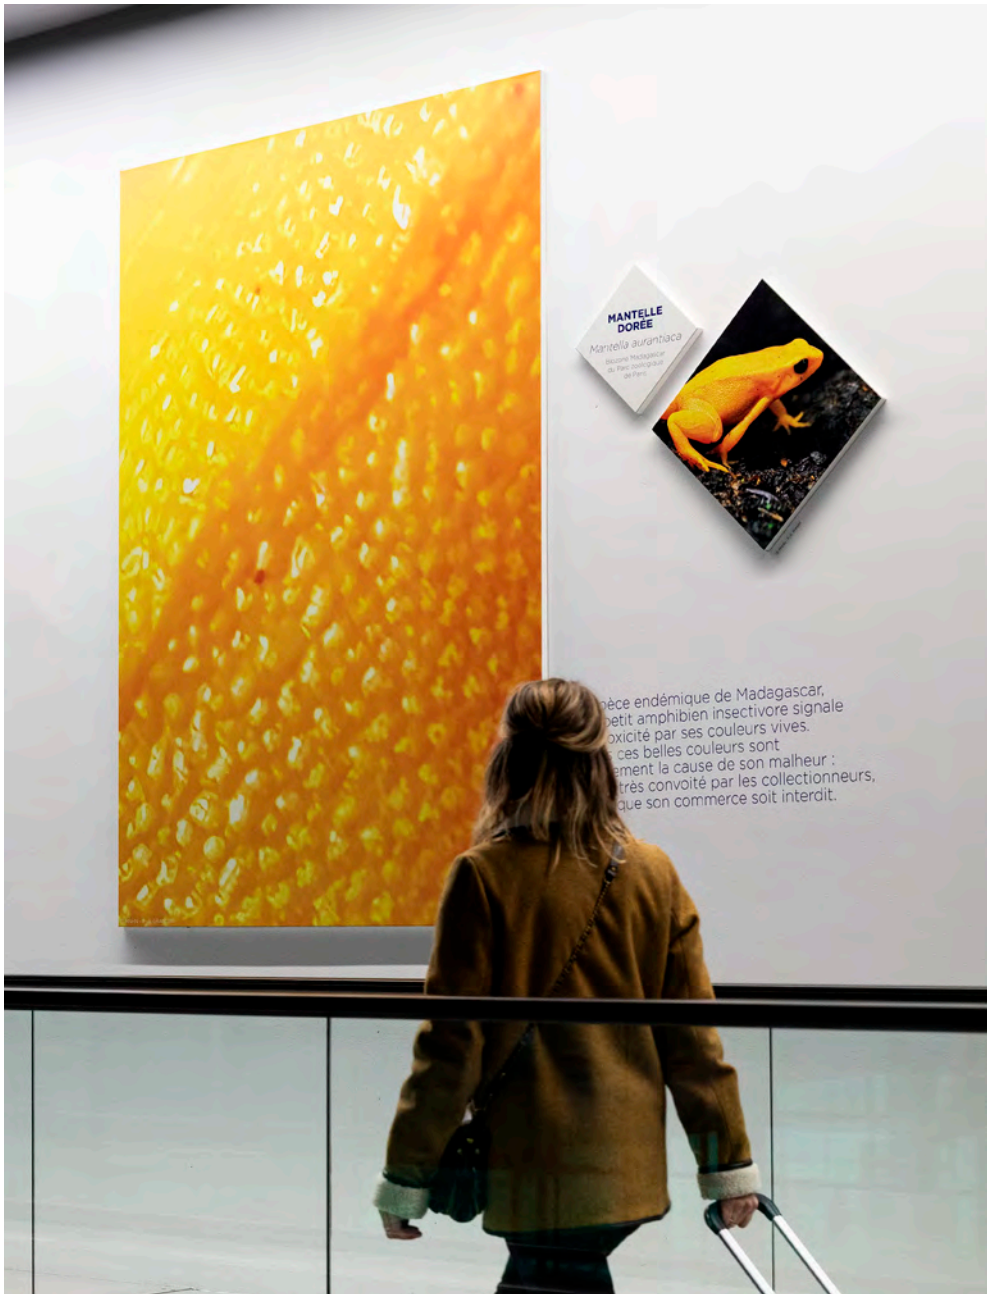

Close-ups lie at the heart of the exhibition: high-definition pictures reveal unique textures and surprising nuances.
Plants, animals, minerals, fossils, or human-made objects: each image awakens the imagination and changes the way we see things.

THREE THEMES

© MNHN - J.-C. Domenech

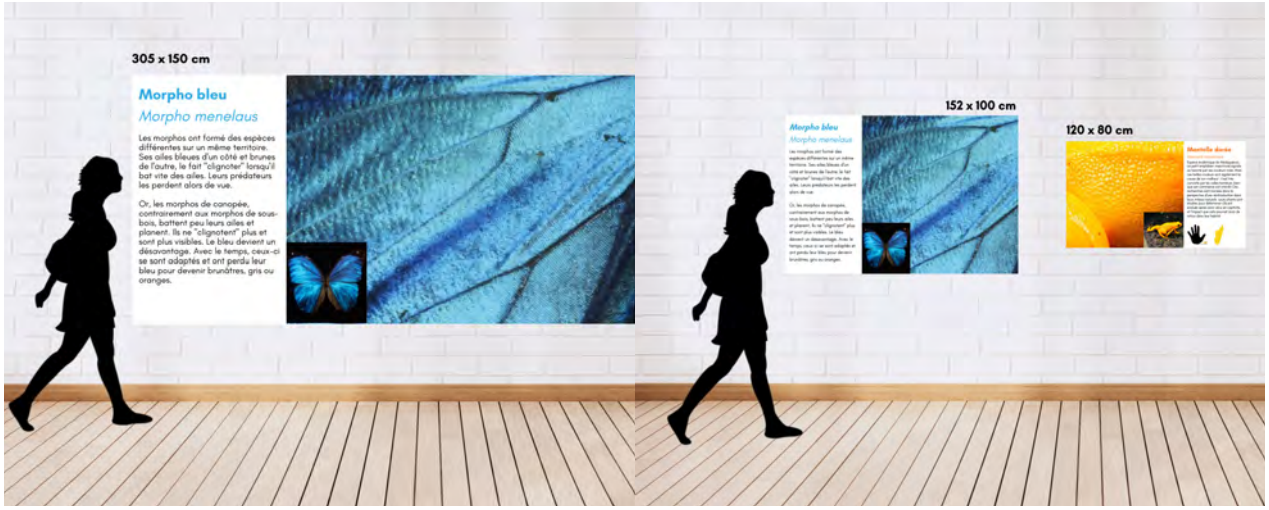

Collections are organised around three themes: Adaptation of living organisms, Species preservation, and Scientific research and history. Each theme is illustrated by specimens or objects from the MNHN's various sites: the Great Gallery of Evolution, the Mineralogy and Geology Gallery, the Palaeontology and Comparative Anatomy Gallery, the Zoological Park, the Botanical Gardens, and the Musée de l 'Homme.

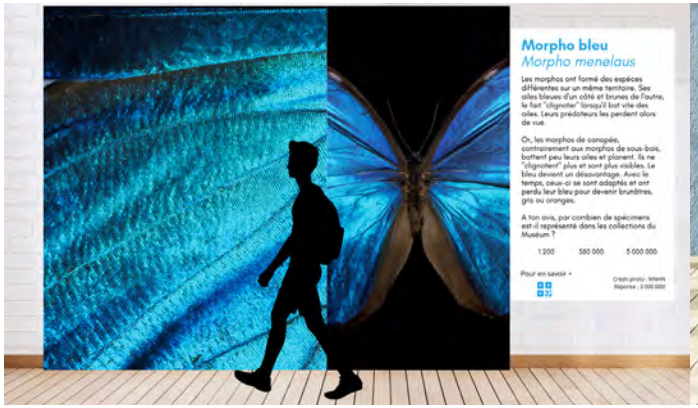

HOW YOU CAN HOST THE EXHIBITION ?

A version is available as ready to print graphic panels.

COMING SOON

For more flexibility, you have the option of receiving specific content and adapting the visual presentation to your own constraints. Here are some examples ....
